Activities designed to include classroom activities and transition to field based experiences!

*\* see attached flyer for more information*

## October TBD – November TBD

### Envirothon Workshops- 9-12<sup>th</sup> grade students

High school science teachers: Looking for a fun extracurricular program? Put a team together for the state Envirothon competition in April! We will offer workshops throughout the school year in focus topics on Forestry, Wildlife, Aquatic Ecology, Soil Health, and this year's Current Issue "Western Rangeland Management: Balancing Diverse Views." Professionals from a variety of agencies will present and lead field workshops to enhance student understanding of critical natural resource issues.

## September TBD – November TBD

### Acequia Presentations & Tours

The San Luis Valley has a unique irrigation system that is hundreds of years old! The acequias of southern Colorado are still functioning as they have for the past 150 years. Ask for our staff to give a classroom talk before heading out to tour these historic canals.

Perfect learning opportunity for FFA chapters and Social Studies classes to understand SLV agricultural history!
